## Army plan heralds inflow of big bucks

Projects may total \$690 million here

By John Duchemin  
ADVERTISER STAFF WRITER

The Army is proposing to spend up to \$690 million on construction in Hawai'i as part of upgrading the 25th Infantry Division (Light) into a larger, more heavily equipped fighting group.

The Army wants to redo roads, training facilities and runways and add barracks and other buildings at several bases in Hawai'i, the division's Col. John Gardner said yesterday.

Upgrades to infrastructure, which would take several years, would be made at Schofield Barracks and other military bases on O'ahu and the Big Island.

The upgrades, part of a larger plan to transform the entire Army, would let the 17,000-soldier division support another 500 soldiers and about 430 extra vehicles, including about 300 armored personnel carriers. The new equipment would be devoted to a beefed-up brigade, a sub-unit of the division, which would be used for rapid response to crises in the Asia-Pacific region.

A broad outline of the proposed upgrades, presented by Gardner to a breakfast meeting of the Chamber of Commerce of Hawai'i, provides some of the first details about the
